The requirement for States to submit the results of their triennial reviews (regardless of whether they resulted in any WQS revisions or not) to EPA for approval is in 40 CFR 131.20(c).

My bad - so to answer the Q re: 2004 - I don't know. Not sure if I saw it, and didn't know we needed to approve it. I knew we typically commented on them, but I never have. Sorry I can't be more help.

I think the question is about a 2004 workplan, not a 1994 workplan, so that ancient history is kind of irrelevant. I don't actually know whether they sent in the 2004 workplan. That would have been the material for this most recent round. In fact (to compound my ignorance) I didn't know that the Board gets EPA approval for the workplan. Is that some kind of deliverable under our oversight agreement with them?

Yes, Yes and Yes (I think.)

We are tracking it and would comment if there was much to comment on. We'll at least attend.

I'm not sure about the Sept 94 "triennial review workplan (staff report)" you mentioned. The last version of BD WQCP was in 1994 just before Bay Delta Accord, and before I came to Water Division. Patrick Wright still had the lead on review. I believe we approved in early 95 and will try to track that down. Tom?

See the notice below re: an upcoming public hearing on proposed amendments to the Bay/Delta Plan. Karen, am I correct in assuming that you and the Bay Delta folks are tracking this? I checked the SB's website and noticed that it says the SB adopted the triennial review workplan (Staff Report) for the Bay Delta on 9/30/04 and approved it for submittal to EPA. Did they ever submit it? Was an approval letter ever sent? We're supposed to track triennial reviews in our WQS Actions Tracking system (WATA), so, if you can send me the dates the workplan/Staff Report was received and approved (assuming this occurred), and an electronic copy of the approval letter, I'll enter them into WATA. I'll need similar info for any WQS amendments to the Plan that the SB ends up submitting to EPA.

Thanks,  
Kathy
